If you have a child who will be attending Kings Park in 2017 you need to complete an enrolment form as soon as possible so that your child will be able to attend our program. If you have friends or other family members who have not yet completed an enrolment form but are wanting to attend Kings Park Primary could you please pass this information on to them.

INFORMATION FOR ALL PARENTS

Kings Park Primary School is once again beginning to prepare to collect data for the national collection of data for school students with a disability. This collection is undertaken by all government, non-government and catholic schools across the country and is used for the department to look at what adjustments are being made by schools and teachers for students with a disability.

The process involves teachers outlining any adjustments made to teaching programs, strategies, resources or assessment to assist students within their classes. There will be a period at the beginning of Term 3 where teachers will inform the school of the adjustments they are making. From there a school team will assess all this data and report back to the department on the amount and level of adjustments being made to students at our school.

No students are identified individually through this data collection.

We ask parents to read through the information which can be found on the Recent News section of our website (http://www.kpps.vic.edu.au) and contact the school if they have any questions or concerns.
